Global Extended Life Coolant

Product Description

TechCool Global Extended Life Coolant is designed for use in all domestic and foreign automobiles and light duty trucks. The formula is an advanced hybrid organic acid technology (HOAT) which is compatible with both conventional inorganic salts (green) and OAT-type coolants (orange/strawberry red). It is phosphate, silicate, borate and nitrate free. It does contain Nitrite for Heavy-Duty application. Corrosion protection is provided for up to 150,000 miles. It may be used to top off any other coolant. PREDILUTED it is READY TO USE.

Product Specifications

Color: Amber

Freeze Point: -34F
